

Individual Weekly Report

Name: Abdiel Rivera

Team: Bray IIoT Smart Solutions

Date: 4/7/2025

Current Status

1. What did you **personally** work on this past week?

Task	Status	Time Spent
I worked on the frontend for the app	In progress	6 hrs

Include **screenshots/graphics** to illustrate what you did this past week:

Back

Aux Sensor - N/A

2. What problems did you run into? What is your plan for them?

I am having trouble trying to edit the frontend to display data for sensor data that isn't a torque sensor. To address this I will continue to use fake data to try and develop a better understanding of the app.

3. What is the current overall project status from your perspective?

The actual objective of the project is essentially done, all that is left is to make it so that the collected

data is presented in a readable format.

4. How is your team functioning from your perspective?

The team is functioning well so far.

5. What new ideas did you have or skills did you develop this week?

I have had to learn how to work with the previous team's alembic database.

6. Who was your most awesome team member this week and why?

Alex was the most awesome team member for working on the report.

Plans for Next Week

What are you going to work on this next week?

I will continue working on the frontend.
