

Individual Weekly Report

Name: Matthew Livesay

Team: Bray

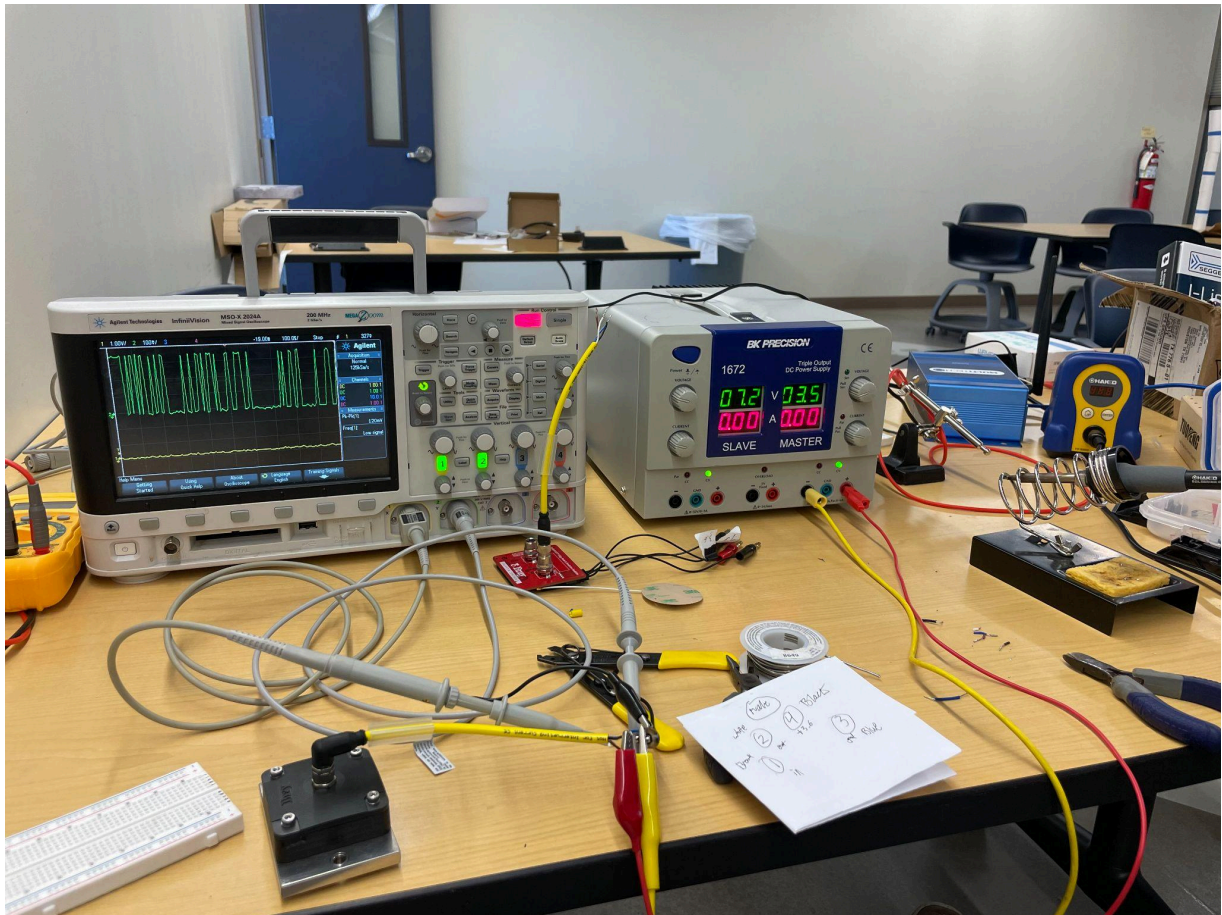

Date: 3/24/25

Current Status

1. What did you **personally** work on this past week?

Task	Status	Time Spent
Fixed battery	done	45 min
Analyzed torque test board	done	2 hrs
Connected gateway to backend	done	1 hrs
Worked on connecting board to gateway	In progress	1.5 hrs

Include **screenshots/graphics** to illustrate what you did this past week:

2. What problems did you run into? What is your plan for them?
 - a. LoRA board communicates with gateway but doesn't connect properly. We're working with bray on a solution and running troubleshooting steps
 - b. Battery doesn't seem to power the board correctly. We will look into why this might be the case. Maybe it's dead, maybe something else happened
3. What is the current overall project status from your perspective?
 - a. Making more progress. Still running into issues but they are slowly being resolved
4. How is your team functioning from your perspective?
 - a. Still functioning fine
5. What new ideas did you have or skills did you develop this week?
 - a. Network configuration and hardware troubleshooting
6. Who was your most awesome team member this week and why?
 - a. Aysen for spending a bunch of time working with me and various others on getting the board connected to the gateway

Plans for Next Week

Work on budget

Hopefully get torque demo working

Start sketching out firmware
