

Individual Weekly Report

Name: Matthew Livesay

Team: Bray

Date: 3/3/25

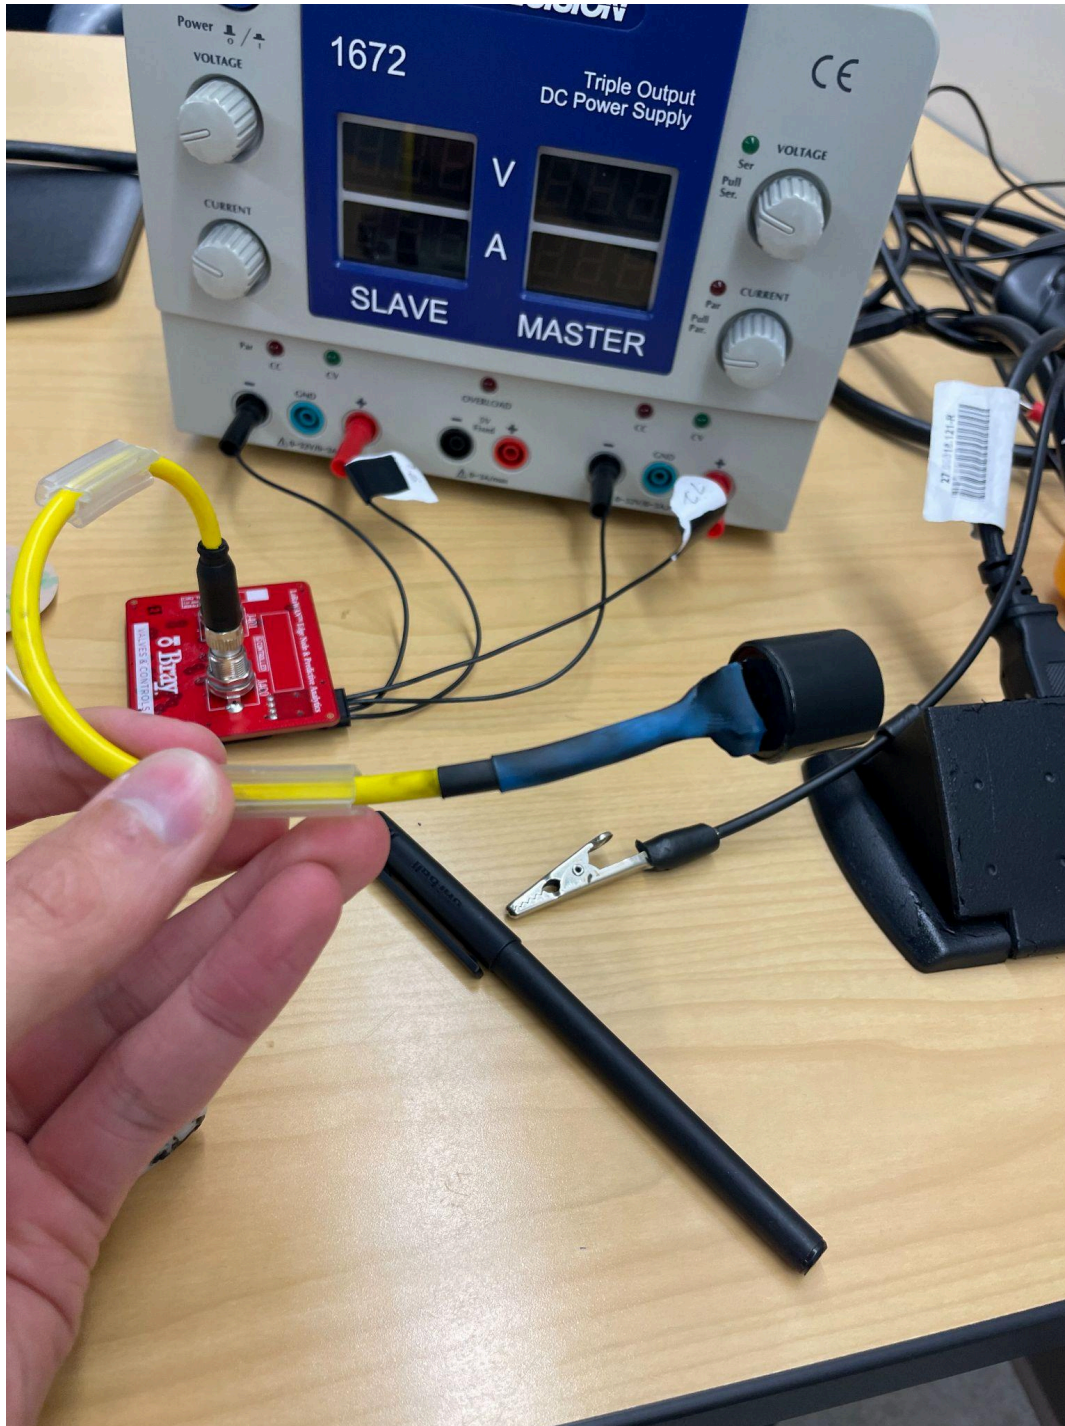

Current Status

1. What did you **personally** work on this past week?

Task	Status	Time Spent
Setup gateway	Complete (hopefully)	30 min
Solder sensor	complet	1 hr
Read firmware	In progress	2 hrs
Played around with the flashing program	complete	30 min

Include **screenshots/graphics** to illustrate what you did this past week:

2. What problems did you run into? What is your plan for them?
 - a. Still waiting on instructions for flashing firmware. Looking into how to re-factor the firmware to not use interrupts
3. What is the current overall project status from your perspective?
 - a. Behind but we'll make it

4. How is your team functioning from your perspective?
 - a. So far so good
5. What new ideas did you have or skills did you develop this week?
 - a. C firmware, so much fun /s
6. Who was your most awesome team member this week and why?
 - a. Josh, he beat his head against the table all week trying to get data from the back end to show on the front end.

Plans for Next Week

Solder the other sensor

Keep working on the firmware. Hopefully figure out where we can insert our code and what that code might look like.
