Include **screenshots/graphics** to illustrate what you did this past week:

2. What problems did you run into? What is your plan for them?

I am currently trying to better understand the graphing function of the app to get it to work for our purposes and integrating it into the project as a whole.

3. What is the current overall project status from your perspective?

We are still behind schedule but I believe we can finish in time assuming there are no new roadblocks.

4. How is your team functioning from your perspective?

The team is functioning well, we are trying our best to make the most of the unfortunate situation.

5. What new ideas did you have or skills did you develop this week?

I have been learning how sqlalchemy works

6. Who was your most awesome team member this week and why?

Aysen was the most awesome team member for figuring out how to get the fake torque sensor to work with the old team's project.

### **Plans for Next Week**

What are you going to work on this next week?

I will work on integrating my changes with the previous team's work.
